# *The Policy of Central Supply & Rubber Company*

is to conduct our business in an honest straight forward manner, distribute well known quality merchandise at legitimate prices and render the best possible service at all times.

You can expedite shipment of your order by using the order number and description of merchandise shown on the pages of this book. Avoid delays and shortages by checking your bills against merchandise received at the time the carrier makes delivery. Insist that the carrier's representative makes a notation on the freight bill of all shortages at time of delivery.

There will be a handling charge made against all goods returned for credit when order for the same has been filled correctly by us. We will not accept merchandise returned for credit without first obtaining our consent. All merchandise sold by us is guaranteed to the degree as specified in the manufacture's warranty. We do not assume responsibility for merchandise damaged by accident or misuse.

For open account customers, payment on standard invoices is due by the tenth of the following month. A discount may be allowed for early payment when noted on your invoice. Invoices not paid by the twentieth of the following month are subject to finance charges of 1-1/2% per month (18% per annum), with a \$2.00 minimum charge. A fee of \$25.00 will be charged for any check submitted for payment that is returned to us due to insufficient funds.

Unless otherwise noted all items are shipped FOB Omaha, Nebraska. Due to market conditions all prices in this catalog and otherwise published by our company are subject to change without notice.

*Centralize* your buying with *Central Supply & Rubber Company* and you'll see why we've been in business serving agriculture and industry since 1944. Your business is appreciated.

Yours Truly,

*Jack Swanson*

Jack Swanson II  
President

In memory of  
Jack William Swanson, Sr.  
1913 - 1998  
*We All Miss You Greatly!*

Central Supply & Rubber Company was founded by E.E. Thomas, Orville Goecker, Harry Goecker, George McPherson, Victor Enholm, Harry Schropp, and Jack Swanson, on June 30, 1944.

## How To Get To *Central Supply*

**109 North 9th St.  
Omaha, Ne. 68102**

**From I-480 East Bound:** Take the 14th Street exit and turn left at the first set of traffic lights (Capitol Ave.). Go 5 Blocks to 9th Street and turn right.

**From I-480 West Bound:** Take the Dodge Street exit (1st exit after crossing the Missouri River). Turn right at the first set of traffic lights (10th Street). Go 1 block to Capitol Ave. and turn right. Go 1 block to 9th Street and turn right.

We are directly south across the street from the Century Link Arena.

**If you need further directions  
feel free to call us at:**

**(402) 341-6977 or Toll-Free: 1-800-444-8666**

**Accepting  
MasterCard & Visa**

 LIFT CHAINS FASTEN TO #1 ABOVE

MARROW INCORPORATE  
 JD 7000 - 7100 PLANTER

JKPH  
 DESIGNED TO FIT MOST PLANTERS  
 17" CABLES - 12" WIDE

## KOVAR PLANTER INCORPORATOR

### DESIGNED TO FIT MOST PLANTERS

1/2" cables allow teeth to follow contour without digging in. Spring teeth allow mixing action in the field. Chain lift depth control and transporting. All cables have a "Fiber Core Center". This lets you put pressure on teeth. All bolts and chains plated.

Model	Type	Color	Wt.	Price
JKWHI .....	For Older White 5100, 33" Cables, 15" Wide .....	Red .....	7 lbs. ....	\$39.00
JKINC72 .....	Repair Teeth .....			1.20

## "BIG TOOTH" SICKLE SECTIONS

## KONDEX

Designed and built to last much longer and stay sharper than ordinary sickle sections.  
 This unique coined, top serrated (10 serrations per inch) section, is the ideal specialized tool  
 for coarser, dryer stem crops. (Not recommended for fine stemmed native grasses or similar crops.)

## KONDEX LICKITY-SPLIT™ REPAIR KITS

Order No.	Description	
711-012	2" hole spacing repair kit	Nuts/Bolts/Splices
711-010	2-1/16" hole spacing repair kit	in Poly Bag
711-011	2-1/8" hole spacing repair kit	

**NOTE: Air tools not recommended for assembly of splice kit.**

Lickity-split will mend most broken sickles.

For the strongest joint possible using Lickity-split, follow the recommended instructions.

Breaks near the head of the sickle can be moved to the tail end with Lickity-split. Some drilling may be required to mount the knifehead in new positions.

Continued On Next Page. See Page 36-37 For Abbreviation Explanations. See Page 39 For Complete Price List.

## STERN HOLD-DOWN CLIPS

Fits mowers, combines and all sickle bar applications. Field tested for four years.

Save on breakage and wear on sickle blades. Save sharpening 50% with Stern Hold-Down Clips.

Comes with a replaceable plastic wear strip that takes all the wear (A). This clip has a 3 year field test.

Not to be confused with other clips without the proper means to control the pressure on blades and to conserve excess wear on plastic by means of a bolt setting (B).

Also is the method to release tension on sickle section for quick removal of sickle section by turning bolt 1/4 turn R or L.

### 1000 SERIES FOR MOWERS, COMBINES, WINDROWERS

No.		Each
1016	Low Arch with 7/16" Bolt Hole	\$21.75
1026	High Arch with 7/16" Bolt Hole	22.30
1048	High Arch with 3/8" Bolt Hole	22.90
1050	Plastic Wear Strip for Above	1.85

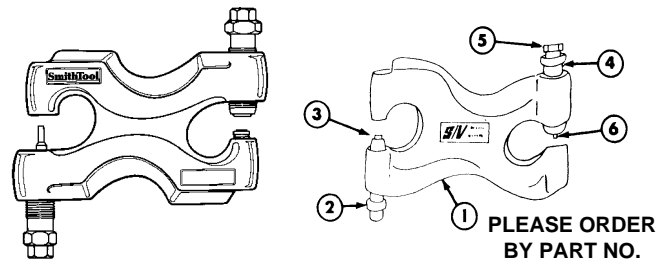

### PARTS FOR 1000 OR 2000 SERIES

1052	Adjustment Bolt	2.35
1061	T Nut for 1052 Adjustable Bolt	1.50
1063	Tension Spring	1.75

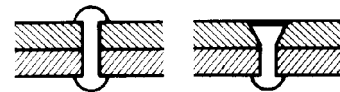

**Note** --- Use 1026 or 2026 to provide high clearance on the sickle bar section next to headend drive.

Dealer Schedule.....152

## S/V RIVET TOOL

Removes and replaces **BOTH** standard round-head **AND** countersunk rivets.

New 2-way reversible anvil insert gives this tool the capability of replacing both types of rivets quickly and easily. Ideal tool for the operator who has several machines with varying sickle section fasteners. Narrow body design fits all sickles including new Tiger Tooth sections. Packed in clamshell complete with instructions.

No.		Each
R-3030	Rivet Tool	\$140.10

## Flexo Guard ABM-D-3F

**This is a special 3-Point bolt on guard to be used on John Deere Flex Heads only with 4" center.**  
This Flexo Guard will fit on O.E.M. guard #H213398JD, #H213507JD, H229538JD, and #H229537JD

### Installation Instructions

1. Start with one exposed guard at the left of your platform.
2. Place the 3 point guard on the next 3 guard points and bolt into place and continue to cover the exposed points at the end of the platform.
3. Take one of the 3 point guard sections and saw it into 3 pieces. Placing the left piece on the left side of the platform and the right side on the right side of the platform to cover the exposed points at the end of the platform.
4. This completes the assembly as needed to cover all guard points.
5. Install the tine wires in each of the flexo guard points tapping in each until flush with the end. Then spread the wires approximately 4" to 5" at the extreme points.

\*\* You may need longer bolts to compensate for the thickness of the tab on the guard. \*\*

# ABM Flexo Guards

Explanation of FLEXO GUARD set composition

# Grain Saver Boot Attachment

The Grain Saver Boot attaches to the Flexo Guard Point Section and is designed to catch crop loss that is caused by shatter and drop. The crop that is normally lost, is recovered in the Boot and transferred to the Platform.

Save more bushels of sorghum, soybeans, sunflowers and many other crops. Also designed to work with all Bolt On Sickles Sections to prevent Tine wire problems.

## Flexo Guard Application Guide

### DUETZ / ALLIS CHALMERS / GLEANER

Set No.	Width	Lbs	Set No.	Width	Lbs
FG-387	10'	33	FG-747	19'	55

# Meter-Man ACREAGE COUNTERS

## Mechanical Gear Drive Acreage Counter

B&L Manufacturing has introduced a new line of mechanical Acreage Counters for corn and soybean planters. The line features a new aluminum mounting bracket and redesigned counter. The bracket provides constant gear meshing, but allows the counter to count only when the planter is planting. The improved counter displays to 1/1000th of an acre and allows the counter gear to be secured to the counter with a locknut, preventing gear spin-off. The Acreage Counter is now available for more than 150 models of planters.

\* The Acreage Counter is a must for accurate calibration of application rate. Registers in exact acres - only when planter is planting. An inexpensive and dependable system. Constant meshing gears for positive accuracy. Full one year warranty.

# ELSTON GOPHER GETTER

## EASY, QUICK, LOW COST METHOD FOR POCKET GOPHER CONTROL!

- \* Adjustable depth torpedo (6 to 12") forms artificial runway that intercepts and connects natural pocket gopher runway.
- \* Bait distributor meters bait in pre-set quantities.
- \* Safe - - Bait is underground, out of reach of animals and wildlife.
- \* Economical - - Bait costs are a few cents per acre.
- \* One pound of bait treats one acre.
- \* Replaceable hardened steel torpedo point.
- \* Bait hopper has 40 lb. capacity.

The Elston Gopher Getter builds and baits artificial gopher runways in one fast operation. Users acclaim the effectiveness of the kill.....The sturdy design and construction of the machine.....And the easy, low cost method to get rid of this rodent.

**PARTS LIST FOR  
GA-600 GOPHER GETTER JR.**

**GA-600  
GOPHER  
GETTER JR.**

**NEW PRICES AS OF 1/10/2018**

Comes with empty bait jar. Bait NOT included.

An inexpensive cartridge loaded unit which dispenses poison bait automatically underground in pocket gophers natural runway, out of reach of harmless birds and pets.

**Child-Resistant Jar.**

STEP 1 - To poison pocket gophers, the natural runway must be located by probing about 12" to 18" from the mound on the side of the horseshoe-shaped depression.

STEP 2 - When runway is found, press red button on top of the handle letting the inside valve shaft telescope. Pull unit out of the ground, holding down the red button. The bait automatically drops into the gopher runway.

## Rockford Hydraulic Cylinders

### Rockford 2500 Series

DOUBLE ACTING TIE ROD TYPE CYLINDERS  
 Pressure rating: 2500 PSI maximum pressure, 4000 PSI maximum shock and surge pressure. Piston and cylinder head casting high tensile strength gray iron. Base casting and rod clevis ductile iron. Heavy duty "O" ring seals with back up rings on piston and rod. Rods: induction hardened C1045 steel alloy, hard chrome, plated and polished. Barrel: precision honed C1020 steel alloy.

### Small Breathers

Model	Thread	WT.
BHF-3	1/2" NPT	3 oz.
BHF-4	3/8" NPT	3 oz.
BHF-6	3/4"-16 ORB	3 oz.

Plug-type breather/filter for converting double action unit to single action. Aluminum body contains two fine filter screens retained by stop washer. A low-cost, non-reusable, "throw-away" unit.

**NEW PRICES AS OF 6/10/2021**

Order No.	Description	Price
OHC-BHF-3	Small Breather, 1/2" NPT	\$6.39
OHC-BHF-4	Small Breather, 3/8" NPT	6.39
OHC-BHF-6	Small Breather, 3/4"-16 ORB	10.66

### Breather Filters

Model	NPT	WT.
BHF-1	1/2"	8 oz.

Primarily for use on a double action unit being used as a single action. Filters dirt out of cylinder end displacing air. Used often on oil reservoirs, or any part of hydraulic circuit where air is displaced. Filter material can be removed easily and cleaned for re-use. 1/2" NPT.

Order No.	Description	Price
OHC-BHF-1	Breather Filter, 1/2"	\$42.75

# PIONEER QUICK COUPLING ADAPTERS

Pioneer adapters shown here provide the most reliable and exacting interchange in the industry.

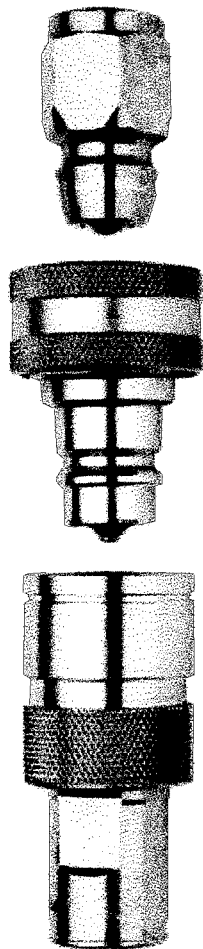

## How To Connect Using An Adapter

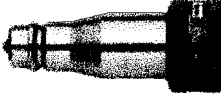

**STEP 1** Relieve trapped pressure in the implement line.

**STEP 2** Connect male tip on the implement line into the adapter.

**STEP 3** Connect the adapter into the female body.

**TO DISCONNECT** Reverse the above procedure: first disengage adapter from female body, then male tip from the adapter.

	Part No.	Adapts This Style Of Male Tip	To This Female Body

# Pioneer HYDRAULIC QUICK COUPLERS

**4000 Series** offers exceptional dependability for demanding hydraulic applications where there is a absence of trapped pressure. Available in sizes from 1/4" to 1/2". Features a tight metal to metal seal.

**4100 Series** is similar to 4000 series with larger body size and increases flow capacity.

**4200 Series** is similar to the 4000 series but with double-acting sleeve. This unique sleeve allows easy one-hand connection when coupler is clamp mounted. Push to connect.

**5000 Series** is an economical coupling for application where uncoupling or recoupling under trapped pressure is a requirement. This is simply done with ordinary wrenches. No remote valving required.

**8200 Century II Series** lets you couple or uncouple implement or tractor with up to 2000 P.S.I. back pressure. Easy one hand connection when sleeve is clamp mounted. No wrenches needed.

# Pioneer HYDRAULIC COUPLERS & ADAPTERS

### CASE COUPLERS AND CONVERSIONS

4080-4	..... Adapts Standard tips (Pioneer 5010, 7010, 8010 or comparable) to a Case female half #28542 (Case std. before 1975)	\$47.56
4085-4	..... Adapts Case tip #A28541 (Case before 1975) to a Pioneer (or any other brand that interchanges with Pioneer) female half	118.81
5080-4	..... Male tip that completely interchanges with the old style Case tip #A28541. Features new Hi-Flo style poppet valve. Available with 1/2" tapered pipe thread which eliminated the need for a pipe adapter always needed with the old style Case tip	23.45
8010-4	..... Tip for the new FIEI std. with 1/2" tapered pipe thread. Has Hi-Flo shield around ball check valve. Mates perfectly with all Pioneer bodies and any other competitive body designed to accept the new FIEI std. tip	10.35

### ALLIS CHALMERS

SM-502-8FP	..... Old style Allis Chalmers male tip, 1/2 NPTF (Replaces #4610-4)	18.70
------------	--	-------

### FORD

8010-4P	..... Ford poppet style male tip, 1/2 NPTF	11.20
---------	--	-------

### MISCELLANEOUS

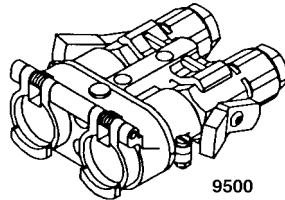

5011-4	..... Screw tip for 5050-4 female body	10.40
--------	--	-------

NEW PRICES AS OF 5/17/2021

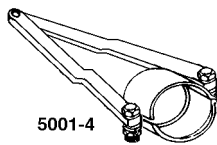

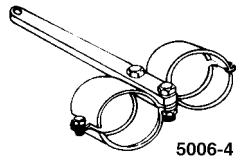

### 9500 Series Couplers

The Pioneer 9500 series coupling has become the most widely used lever actuated coupling in the agricultural market. The 9500 series coupling permits connection even when both the tractor and implement levers are pressurized.

No.	Description	Price
9500-4	..... Kit, 1/2" NPTF	\$297.32
9250-4L	..... Yellow Body Only, 1/2" NPTF	130.09
9250-4R	..... Red Body Only, 1/2" NPTF	124.22
9500-16	..... Kit, 7/8"-14 O-Ring Boss	343.26
9250-16L	..... Yellow Body Only, 7/8"-14 O-Ring	116.42
9250-16R	..... Red Body Only, 7/8"-14 O-Ring	116.42
9006-4	..... Double Break-Away Clamp	30.37
9507-4-1H	..... Plastic Dust Cover	40.30

\* 9500 kit contains the following: 2 #9250 female bodies.  
1 #9507-4 automatic dust cover. 1 #9006-4 dbl. breakaway clamp.

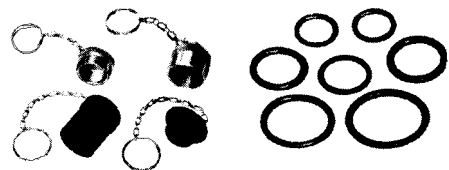

### BREAK - AWAY CLAMPS

Breakaway Clamps automatically uncouple the hydraulic lines thus preventing damage to any equipment or lines. It makes no difference whether implement is unhitched accidentally or intentionally. For use with female bodies that have 1-1/2" sleeves.

No.	Description	Price
5006-4	..... Double Break-Away Clamp	\$20.36
5001-4	..... Single Clamp	19.14

NOTE - - - Above break-away clamps may be used with all pioneer couplers except those marked with an (\*) asterisk on the preceding page.

# Pioneer Poppet Style Quick Couplings

## Stop Hydraulic Leakage! With Poppet Style Quick Couplings

Poppet style valved couplings are ideal for applications where "bubble tight sealing" is desired on a tractor or farm implement to prevent uncoupled leakage of hydraulic fluids.

### Features

Poppet valving on both male and female halves. 8010 series poppet male tips meet ASAE #S366, SAE #J1036, and I.S.O. #5675 standard requirements. Steel construction with zinc and yellow chromate finish to help prevent corrosion. Bruna-N Nitrile seals. Connect-Under-Pressure nipples allow connection under residual pressure up to 3000 PSI.

### Specifications

1/4" - 1" body sizes. Interchangeable with std. Pioneer 4000 and 4200 Series Ball Valve Couplings. Operating Pressure: 3000 PSI

### Typical Applications

Agricultural tractors or various hydraulic-operated implements where uncoupled oil leakage is not acceptable.

NEW PRICES AS OF 5/7/2021

\* Manufactured to meet the original J.D. dimensional specifications, and has a smaller hex size than a standard Pioneer tip.

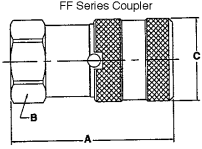

# Pioneer FEM & FF Non-Spill Couplings

FF & FEM series couplings were designed for the mobile equipment market and are used extensively on skid steer loaders. The non-spill features eliminates hydraulic spillage and air inclusion when connecting or disconnecting hydraulic attachments. FF & FEM series are ideal for many other applications where hydraulic spillage is a concern and global interchangeability with other manufacturers is important.

# PIONEER QUICK COUPLING KITS

## 9500-4 Kit

Contains 9200 Series couplings and accessories.  
For connect and disconnect at zero pressure, even with pressurized lines.

9500 kit contains: (2) 9250 female bodies, (1) 9507-4-1H automatic dust covers, (1) 9006-4 double breakaway clamp

Kit No.	Description	Price
9500-4	Lever Coupler Kit, 1/2" NPTF	\$297.32

## 8500-4 Kit

Contains 8200 Series couplings and accessories.  
For connections having pressure on either tractor side of implement lines, or both.

8500 Kit contains: (2) 8250-4 female bodies, (2) 8010-4 male tips, (1) 5006-4 clamp, (2) 5209-4M dust caps, (2) 5205-4M dust plugs

Kit No.	Description	Price
8500-4	Break Away Kit, 1/2" NPTF	\$156.32

## 8700 Series ISO Conversion Kit

Upgrade International Harvester tractors to accept ISO male tips models 1971 to 1983.  
Converts lever style tractors to accept ISO interchange male tips  
Easy push/pull connect and disconnection  
Reduced pressure drop—longer system life  
Simple, fast Installation  
Patented dust cap keeps dust and dirt out.

## DR10010 Kit (JD #RE206778)

Converts J.D. 4000 series for use with ISO 5675 Pioneer style tips.  
Eliminates the need for adapters.  
Easy push/pull operation  
Reduced pressure drop for longer system life  
Simple and fast installation  
Chromium 6 Free plating for excellent corrosion resistance.

Kit No.	Description	Price
DR10010	JD RE206778 Conversion Kit	\$175.97

# HYDRAULIC MULTIPLIERS

## Turn One Hydraulic Outlet Into Two or Three

Two circuit shown with couplers

### Works on all makes....

of hydraulic systems, open, closed and PFC, as well as single and double acting circuits. They can be used with most types of hydraulic machinery, not just tractors. Operating Pressure - 3000 PSI, Flow - 0 to 15 GPM

**Electrohydraulic Valves** provide the operator hands on control from cab.

The circuit multiplier valve plugs directly into an existing remote outlet, turning one outlet into two. Eccentric fittings allow adjustment of male tips for different makes and models, or mounting holes in the manifold allow easy implement mounting.

**Switchbox** allows for simultaneous operation of circuits. Includes weatherproof enclosure with mounting bracket. Simple wiring harness included. Installations are quick and easy, taking less than one hour.

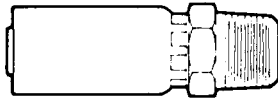

No.	Description	Wt.	Price
HM-14790	Two Circuit w/Couplers 12V DC	11.5	\$514.50

### Vari-Crimp Data Charts for Crimping with Gates Power Crimp 601

Hose Description	Hose I.D.	Approximate Gauge Setting	DIE Set	Coupling Placement	Coupling Crimp O.D.
One Wire Braid 100R1AT (Thin Cover)	1/4"	3	No. .02	1/4" Below Flush	.560
	3/8"	1-3/4	No. 2	3/8" Below Flush	.745
	1/2"	1-1/2	No. 3	5/16" Below Flush	.875
	5/8"	5-1/2	No. 3	3/16" Below Flush	1.000
	3/4"	1-1/2	No. 5	Flush With Die	1.125
1"	7	No. 6	3/16" Below Flush	1.490	
Two Wire Braid 100R2AT (Thin Cover)	1/4"	1	No. 1	1/4" Below Flush	.615
	3/8"	3	No. 2	3/8" Below Flush	.788
	1/2"	2-1/2	No. 3	5/16" Below Flush	.905
	5/8"	7	No. 3	3/16" Below Flush	1.050
	3/4"	3	No. 5	Flush with Die	1.180
	1"	1	No. 8	3/16" Below Flush	1.500

Before crimping, adjust Depth Stop up or down to establish the correct distance between the top surfaces of the die fingers and the top edges of the ferrule using the depth gauge available for Vari-Crimp Couplings. To determine the correct dimensions refer to the "Couplings Placement" column in the crimp chart.

On the one inch I.D. hose it is necessary to remove the depth stop gauge from the machine to avoid damage to it. If it is not removed, it may be bent in the crimping process. When crimping all couplings, make sure that the nut on the depth stop gauge is turned all the way up so that there is spring action in the depth gauge.

## HYDRAULIC HOSE COUPLED ASSEMBLIES WIRE BRAID - AMERICAN MADE

**Tube:** Black, oil resistant, Nitrile (NBR) **Reinforcement:** Two wire braid of high tensile steel.  
**Cover:** Black, oil & MSHA approved abrasion resistant Neoprene (CR)  
**Packaged in Cardboard Sleeves - (Working Pressure) X 4 = Bursting Pressure**

1/4"x2 Wire Braid has 1/4" solid male pipe thread couplings both ends. Working pressure 5,000# Bursting pressure 23,200#

3/8"x2 Wire Braid has 3/8" solid male pipe thread couplings both ends. Working pressure 4,800# Bursting pressure 19,200#

1/2"x 2 Wire Braid has 1/2" solid male pipe thread couplings both ends. Working pressure 4,000# Bursting pressure 16,000#

# Centralize with Central Supply

### Hyd. Suction & Return Line Hose

**Contains spiral wire reinforcement to prevent collapse.**  
Recommended for petroleum and water based hydraulic fluids in suction or low pressure return lines. Working temp. 200°F.

Order No.	I.D.	O.D.	Working PSI	Per Ft.
104MB-12	3/4"	1.16"	300	\$8.46
104MB-16	1"	1.48"	250	9.38
104MB-20	1-1/4"	1.77"	200	11.99
104MB-24	1-1/2"	2.05"	150	15.99

Dealer Schedule:	Less Than 50'	352
	50' Or More	104

### LOW PRESSURE HYDRAULIC RETURN LINE HOSE

High quality neoprene tube and cover reinforced with fabric braid. For return line service on hydraulic systems. This cheaper low pressure hose should be used on low pressure lines such as those between the tank and control valve and between the tank and the relief valve.

No.	Size	PSI	Per Ft.
12L2	3/4" x 2 Braid	200	\$4.35
16L2	1" x 2 Braid	200	7.05
20L2	1-1/4" x 2 Braid	200	11.70

Dealer Schedule:	Less than 50 feet	352
	50 feet or more	203

### TRIPLE-PLY SEAL

IPTCI Triple-ply (L3) Sealed bearings provide more protection in harsh environments. They are often an ideal choice for dirty, high-moisture applications such as those found in agriculture, turf, and car washes.

## Three-Bolt & Four-Bolt Flanges For Standard Ball Bearing Units

The flanges listed below are standard and are dimensionally the same as supplied by the leading ball bearing manufacturers.

Two flanges are required to house a standard ball bearing unit. The spherical inside surface of each pair of flanges mates with the spherical outer surface of the ball bearing ring to provide self-alignment in any direction. **All Flanges Are Zinc Plated.**

### THREE BOLT

## Three Bolt & Four-Bolt Re-Lube Flanges for Standard Ball Bearing Units

These flanges are used where additional lubrication is required. For example, where dust, dirt, excessive moisture, or other contaminants are present. The additional lubrication increases the life of the ball bearing unit by flushing out any contaminants that may be present, plus lubricating the ball bearing unit over a longer period of time.

The flange with the grease fitting, also has a inner grease groove, which allows the grease to enter the holes in the outer ring of the ball bearing. The other matching flange has a similar grease groove, so the ball bearing can be reversed, and still be lubricated.

**1 Flange w/Zerk & 1 Flange (Plain) Makes A Pair.**

## Triangular Three-Bolt Flanges For Standard Ball Bearing Units

(Zinc Plated)

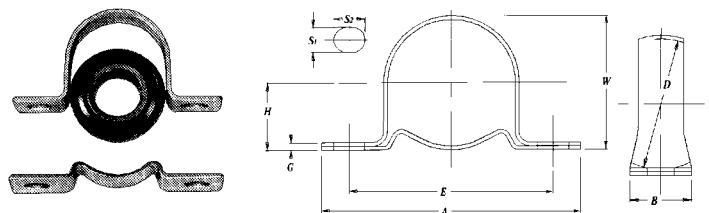

These triangular steel stampings are the same as our round 47MM-3-ZP, 52MM-3-ZP and 62MM-3-ZP parts. They are used where space is limited. One housing unit consists of identical self-aligning flanges. Each pair of flanges has a spherical inside surface which mates with spherical outer surface of the ball bearing to provide self-alignment in any direction. A minimum of space is required for installation as the unit protrudes thru the frame, plate, or panel on which it is installed.

Order No.	For Bearing Shaft Size	Fafnir No.	C O.D.	B Bolt Spacing (C-C)	Per Each

## Single Row Tapered Roller Bearings

One cup and one cone is a complete Tapered Roller Bearing. Cone will only fit cups of the same series and vice versa. Each series is set off by a ruled line. Taper roller bearings, most or which, are made to fractional inch dimensions.

**\*ZERO DUPLICATION**

This interchange has been developed to provide a tool for consolidating or standardizing oil seal inventories. We call it ZERO DUPLICATION concept. (One seal for one shaft/bore combination in the narrowest width). Most of the ZERO DUPLICATION numbers are double lip seals: without an inner case for sizes under 3-1/4" O.D. and with inner case for sizes over 3-1/4" O.D.

Dealer Schedule: Broken Package.....184 Package of 10.....184 & 050

Quantities MAY NOT Be Assorted For Package Discount. **For seals not shown...call for price and availability.**

**For seals not shown...call for price and availability.**

**\*ZERO DUPLICATION**

This interchange has been developed to provide a tool for consolidating or standardizing oil seal inventories. We call it ZERO DUPLICATION concept. (One seal for one shaft/bore combination in the narrowest width). Most of the ZERO DUPLICATION numbers are double lip seals: without an inner case for sizes under 3-1/4" O.D. and with inner case for sizes over 3-1/4" O.D.

Dealer Schedule: Broken Package.....184 Package of 10.....184 & 050 Quantities MAY NOT Be Assorted For Package Discount.

## SAFETY LOCK KLIK - PINS

The Danuser "Safety Lock" Klik-Pin is the ultimate in a positive quick-release lynch pin. In the closed position, the free ends of the snap ring are seated in locking grooves, making it virtually impossible for the ring to be accidentally opened and pin lost, resulting in damage to hitch assembly. Only a firm pressure on BOTH sides of the snap ring will free the ends from the locking grooves, releasing the ring to open position, and permit removal of the pin. It's truly the most positive of Quick "On And Off" Fasteners.

Fits Category 1, 2, or 3

No.	Description	Price
9656-0	Safety Lock Klik-Pin	\$3.10

**Raker Set:** consists of one tooth tilted to the right, the next tooth tilted left, and the third tooth straight. Raker set is preferred for cutting solid cross sections, uniform in shape. It is also used for contour or profile cutting applications

**Wavy Set:** consists of groups of teeth set to the left and to the right, alternating throughout the blade. Wavy set provides greater chip clearance and helps eliminate tooth strippage. It is recommended for most general purpose horizontal band machines.

Used on machines that are properly maintained these blades will give excellent service. Blades are guaranteed when used on "wet-cut" saws with coolant system in operation. Further warranty of service is not intended or inferred.

Dealer Schedule: Full Carton of 10.....203 Broken Carton.....151

## "NEW" RAPID TAP Hard Metal Cutting Fluid

No Ozone Depleting Substances

Effective on beryllium, copper, brass, bronze, cast iron, magnesium, stainless steel, stellite, titanium and others  
**NOT FOR USE ON PLASTIC**

A drop or two makes tapping, reaming, drilling, threading and all other precision machining easier, faster and more accurate.

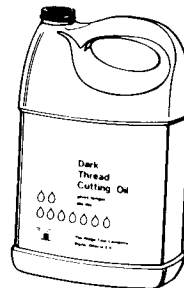

Breaks down surface tensions and adhesions resulting from tool operation.

Frees the tool, reducing tool wear, part rejections and breakage.

	Case	Each
RTCT-4	Rapid Tap, 4 oz.	24 \$3.66
RTCT-PT	Rapid Tap, pint	12 11.67
RTCT-GAL	Rapid Tap, gallon	4 65.85
RTCT-Paste	Rapid Tap Paste, 8 oz. Jar	12 11.67

Dealer Schedule: Full Case ..... 152  
Broken Case ..... 151

## "SUPERKUT" Dark Cutting Oil

SuperKut Cutting Oil is a multi-purpose machining and grinding oil for ferrous metals. It has a balanced combination of additives and oil that offers excellent tool life and surface finishes on a wide variety of steels and stainless steels. The excellent lubricity and extreme pressure characteristics help cool the tools and work piece.

SuperKut cutting oil is recommended for threading and tapping machines, automatic screw machines, CNC operations and most other shop operations where a dark colored, active sulfur cutting oil is required.

	Each
TK-1D	SuperKut Cutting Oil (1 Gallon) ..... \$38.28

Dealer Schedule: Full Case of 6 ..... 152  
Broken Case ..... 151

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

NEW PRICES AS OF 2/28/2020

**SPRAY-ON CUTTING OIL**

Speeds up cutting, sawing, threading, drilling and tapping. Clings to curved or beveled surfaces, will not run off or break down.

**Applications**

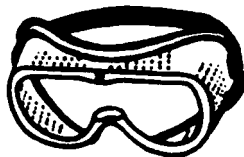

Metalworking operations in stainless steel, aluminum, brass and copper. Also works on turret lathe, gear cutters, broaches and automatic screw machines.

**NEW PRICES AS OF 3/1/2019**

No.	Each
00208 ..... Cutting Oil 12 oz. ....	\$9.07

## Trades Marker

A unique all-purpose marker that comes in a push-button holder that advances the stick as needed. This eliminates all the hassles found with the old paper wrapped china markers. The easy-to-load refills never need sharpening and the holder lets you use the stick right down to the end. Marks on plastic, glass, wood, cardboard, metal, and paper. Marks won't rub off and are weather resistant. Holder has a handy pocket clip.

No.	Description	List
LC-96000	Holder w/5 Colors	\$10.50
LC-96009	Orange Refill, 6 pack	5.95
LC-96042	White Refill, 6 pack	5.95
LC-96043	Yellow Refill, 6 pack	5.95

## Sprayon Wire Rope Lubricant

Penetrates pores of gear teeth and wire ropes thru foaming action. Requires no heating, sprays in seconds. Black color aids in determining adequate coverage. Penetrates to core of wire rope minimizing internal friction. Will not become brittle or break down. Withstands extreme pressure loads and severe temperatures. Will not wash off with water or rub off. "Travels" on metal surface, displacing water to give high rust protection.

No.	Each
00201 Cable Lube, 13 oz. Pressurized	\$12.55

## G-7 Coil Chain

The New G-7 Transport Chain is smaller and lighter than the regular proof coil chain. It is primarily used in the trucking logging and construction industries. Other applications are towing, tiedowns, load binding and farm uses. Especially desirable where a high strength-to weight ratio is required.

G-7 meets Department of Transportation specifications.

NOT TO BE USED FOR OVERHEAD LIFTING

Dealer Schedule:	3 Or More	152
	Less Than 3	102

Note---Chains May Be Assorted For Quantity Discount.

## Swivel Load Binders

(For Proof Coil & High Test Chain)

Free turning 360° swivels on both hooks for easier handling and better utility. Front tongue for greater take-up. Special handle angle prevents finger trap. Drop forged, short reach hooks for maximum take-up. Solid slot prevents handle spreading. Tie down hole in handle can be locked and/or tied down for security and safety. Locks on ears prevent clevis from spreading.

No.	Description	Chain Size	Price
48314	For P.C. & H.T. Chain	3/16" or 1/4"	\$40.82
48315	For P.C. & H.T. Chain	5/16" or 3/8"	65.00
48316	For Proof Coil Chain Only	1/2"	81.52

Dealer Schedule.....203

## Central CHAIN TIGHTENER

A small compact tool, 11-1/2" long, weighs less than two pounds, but with a leverage of over 700 pounds and a stress load of 2000 lbs.

No.	Description	Price
CT2000	Central Tightener	\$17.60

Dealer Schedule.....152

## G-7 Load Binders

ALLOY HOOKS - USE WITH G-7 COIL CHAIN

Unique design requires a smaller slot in handle for more rigidity and ultimate strength.

Handle closes down away from the load for more leverage in binding and releasing without extra tools.

Handles are special bar quality heat-treated steel.

No.	Description	Working Load	Price
48311	For 5/16" G7 & 3/8" HT Chain	5400	\$66.76
48306	For 3/8" G7 & 1/2" HT Chain	9200	101.41

Dealer Schedule.....203

<b>Pins For CB-3 Chain Breaker (Short Style)</b>		
CB-01-016	Pin, 1/8" for 35, 40, 41, 2040	6.80
CB-01-020	Pin, 1/4" for 80, 2080	9.30
CB-01-022	Pin, 5/16" for 100	10.23

## S/V Chain Detacher

### For Standard Riveted Roller Chain

Model A-8050  
Chain-A-Part  
Fits 50, 60, and 80 Series Roller Chain including Heavy-duty 60H and 80H

A compact heavy duty tool with ductile body. Long hardened steel punch pushes the pin all the way out while the clamping sleeve assures perfect alignment. Makes repairs quickly to roller chain on farm machinery and industrial equipment without damaging adjacent links.

No.	Description	List
A-8050	Fits 50, 60, 80, 60H, 80H Chain	\$82.60
B-5035	Fits 35, 40, 41, 50 Chain	72.28

### PARTS FOR A -8050

A-8053	Punch	11.36
A-8054	Sleeve	11.45
A-8008	Screw	11.00

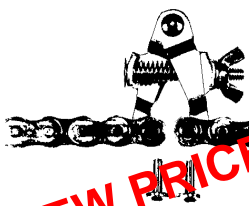

### PARTS FOR B-5035

B-5038	Punch	12.08
B-5039	Sleeve	8.70
A-4053	Screw	8.67

Dealer Schedule: Tools		203
Parts		152

## ROLLER CHAIN HOLDER

### For 35 Thru 60 Chain

Allows chain to be pulled or released without dropping in the dirt or readjusting sprockets when removing or inserting master links.

For a broken chain, first remove broken link plate with a roller chain breaker. Hold the chain in position with holder. Pry out the broken link and insert new master or replacement link.

No.	Description	Price
CH-1	Roller Chain Holder	\$10.90

## Sprayon Open Chain Lubricant

Excellent for chain drive equipment. Penetrates, protects and provides a cleansing action. Moly additive enables moisture displacement. May be used as a protective coating for metal parts while in storage. Withstands extreme temperatures. Increases chain life up to 3 times longer when applied on a regular basis. 12 Per Case.

No.	Each
00202	Open Chain Lubricant, 12 oz. .... \$9.90

## Sprayon Dry Moly Chain Lube

Dry Moly Lube is a high solids, molybdenum disulfide coating that withstands high pressures. This product bonds to all clean surfaces that are not adversely affected by alcohol or aromatic hydrocarbons, such as toluene or xylene.

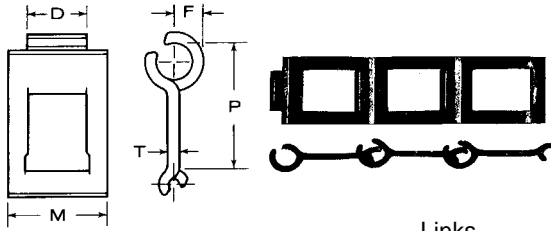

NSF reg. no. 131583; H2 rated - Penetrates pores of substrate and bonds to surface for long-lasting lubrication - High-pressure, high-solids molybdenum disulfide coating - Withstands pressures up to 50,000 psi - Air dries in 5-10 minutes; cures in 2 hours at room temperature - Maintains effectiveness under high temperatures (650°F constant and 750°F intermittent) - Non-conductive - Equipped with EZ TOUCH® Standard Nozzle - Coefficient of friction is .23 per ASTM D4518 - Works as a boundary lube as cold as -200°F

**Recommended Uses:** Assembly and run-in lubrication, automotive and industrial parts, sliding surfaces and gears, chutes and bins, bearings, chain drives, intricate mechanisms, vending machines, parking meters, roller chains and conveyor belts where heat is present.

## FIELD REPLACEMENT INSTRUCTIONS FOR NEW STYLE TRAILING SNAP HITCH PIN KITS

**CAUTION:** ALWAYS WEAR EYE PROTECTION WHEN PERFORMING THIS OPERATION.

- 1) Remove the old hitch pin and spring.
- 2) Place the yoke on a hard surface with the closed end of the pin tube down on the surface.
- 3) Place spring and pin into the open end of the tube.
- 4) Using a 1/8" drift punch, nail set or similar tool and a medium size hammer, deform the end of the tube in 4 or 5 places around the hole periphery while depressing the pin with your thumb. Care should be taken as not to over-stake the pin, which may cause it to stick. Check the crimp to make sure that the pin is secured without sticking.

### NOTE:

**Snap Ring Type  
 Repair Kits Are  
 No Longer Available!**

**Rely on Central Supply for Fast Shipment of your order!**

# G & G Hardened Tooth Weld-A-Sprockets

Standard Hardness is Rockwell "C" 35 to 50.

The teeth are induction hardened leaving the area around the bore soft for reborring or welding.

# WELDASPROCKETS

Factory recommends using Low Hydrogen Electrodes for welding Weldasprocket parts.

The smaller sprockets are to be welded as shown so the weld will not interfere with the chain.

The larger sprockets are to be welded as shown.

## G & G Idler Weld-A-Hubs

W & X Series

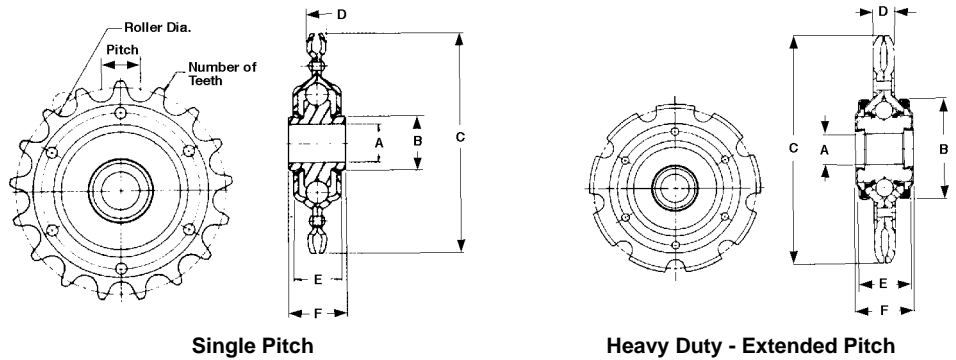

For a quick idler application: Pick the appropriate sprocket or pulley and then pick the corresponding idler hub. For both W or X weldasprockets and weldapulleys. Idler hubs available in 5/8" I.D. bores. Packaged with 1/2" I.D. reducer bushing. Same precision ball bearing used on idler sprockets. Idler hubs machined to eliminate special fixtures. Simply clamp idler hub to sprocket or pulley and weld.

## Aetna Adapter Bearings

AETNA Adapter Bearings are a series of mounted ball bearing units designed for use in equipment where shafts are supported in frames or sheet metal surfaces. Typical applications include overhead doors, conveyor systems, grain augers, and other agricultural equipment. They provide a combination of features which literally give them universal adaptability; hence the name Adapter Bearing. Combining a self-aligning bearing, seals, a mounting flange, and shaft locking device in a single compact pre-lubricated installation, without further time consuming assembling or adjustment.

**Double Pulley Weld-A-Hubs**

Designed to eliminate any special fixtures for pulley alignment and positioning.

**Assembly in 3 easy steps**

1. Clamp one pulley flush against the shoulder of the Double Pulley Hub and weld both together.
2. Slide the second pulley into the 1-5/8" diameter step.
3. Clamp so that it is tight against the first pulley and weld the pulley to the hub on the 1-5/8" diameter step.

### Hobbs Halogen Lamp With Built-In Switch

The Hobbs Halogens With Built-In Switch are simple to install in all kinds of equipment and are easy to operate. Imagine the convenience of being able to simply flip a switch and have a high intensity light clearly illuminate your work area.

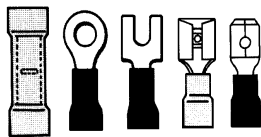

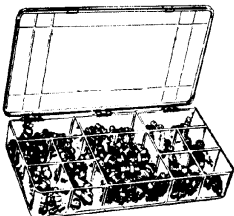

The Hobbs Halogen with Built-In Switch provides light where you need it and when you need it. The sealed-beam construction and other quality features are what you've come to expect from Hobbs Halogens.

Adjustable easy swivel mount. Shock & vibration resistant. High intensity lamp (not legal for street use). Available only in 3 x 5 flood pattern. Specifications: 12 VDC - 50 Watt - 4 Amperes

### Slow Moving Vehicle Emblem

SMV1

SMV1F

SMV7

SMV5

SMV6

During the night, the bright fluorescent orange solid triangle in the center of the SMV emblem is highly visible. It gains the attention and recognition of approaching motorists at distances exceeding one fifth mile. They have ample time to slow down.

At night, the reflective red border of the SMV emblem glows brilliantly in path of approaching auto headlights. The unique, hollow red triangle immediately identifies a slow moving vehicle.

**NEW HIGH REFLECTIVE SMV Emblem is visible up to 1200 feet, instead of 600 feet like the standard emblem.**

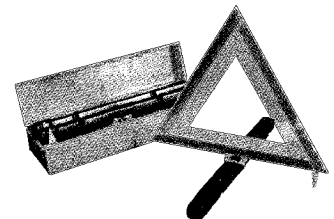

The emblem is a unique identification for, and shall be used only on, vehicles which are designed to travel at speeds of less than 25 miles per hour on public roads. The emblem is not a clearance marker for wide machinery, nor is it to replace either lighting or marker devices now required.

## EZ-Slide Graphite Lubricant

SLICK AS ICE..CONVENIENT AS PAINT  
Prevents hang up of High Moisture Grain & Forage Crop in Gravity Boxes, Chutes, Forage Boxes, Wagon Boxes.

EZ-Slide lubricants can be sprayed, brushed or rolled onto any metal or wood surface to reduce sliding friction.  
Drying takes just minutes, leaving a slippery, long-life coating that becomes smoother and slicker with use. Grit, dust and chaff won't stick to it. Rain, heat & freezing won't affect it.  
EZ-Slide lubricants are the most effective products made to prevent hang-up of high moisture grain in hoppers and gravity boxes. So well do they protect metal against rust and corrosion many users apply them for that purpose alone.

### Spray-On Dry Graphite Lube

Dry Graphite Lube is a high lubricity graphite that adheres to most surfaces with minimum surface preparation. It air dries rapidly at room temperature to provide clean, long-wearing lubrication. This lube is also conductive and may be used where lubrication and electrical properties are both required. NSF reg. no. 131585; H2 rated Ideal where a dry lubricant is required or where petroleum products must be avoided Adheres with minimum preparation. Effective up to 850°F constant and 1000°F intermittent. Excellent conductivity Dries rapidly at room temperature Coefficient of friction is .09, per ASTM D4118 Recommended Uses: Pre-assembly lubrication of moving parts, mechanisms of vending machines and parking meters, automotive and industrial gaskets, bearings, locks, springs, hinges, sliding surfaces on machines, CRTs, plating nonconductors and curing ovens.

No.	Description	Each
00204 .....	Dry Graphite Lube, 16 oz. ....	\$10.70

### Spray-On Galvanizing Compounds

#### #00739 Silver Galvanizing Compound

Sacrificial coating that inhibits corrosion on ferrous metals. Excellent touch-up for repair of galvanized substrates. Produces a dry coating with the bright finish of hot-dipped galvanizing.

#### #00740 Zinc-Rich Cold Galvanizing Compound

Fast-drying, high-solids, epoxy-based coating. Provides maximum protection to steel exposed to corrosive environments. Fuses zinc to the metal substrate to protect against corrosion; equal to or better than hot-dipped galvanizing. 97%-pure zinc dust. May be top coated with conventional primers or finish coats. Meets or exceeds MIL-P-26915C. Outstanding weld thru primer. Highly resistant to salt corrosion and water.

No.	Description	Each
00739 ..	Silver Galvanizing Compound, 16 oz. ...	\$14.35
00740 ..	Zinc-Rich Galv. Compound, 16 oz. ....	13.50

## EZ-SLIDE Powdered Graphite Seed-Flow Lubricant

Packed especially for the ag. market, in a convenient plastic shaker with an Easi-Pour spout. Designed for use in high-speed planters and other farm equipment, to ensure proper lubrication and reduce friction. Just shake it on - it helps the planter deposit 100% of the seed where you want it.

#### Key Features:

Maximizes yield and profit by increasing plant population per acre. Easiest, most economical way to apply seed-flow lubricant - No buildup. Helps prevent "bridging" of seeds in planter. Helps seed flow smoothly and evenly through high-speed planters. Reduces wear on planter plates. Available in 1 lb. and 5 lb. containers

No.	Description	Per Each
RM-9950-1 .....	1 lb. bottle w/Spout (24/case) .....	\$6.96
RM-9950-5 .....	5 lb. bottle w/Spout (4/case) .....	21.72
RM-9950-4 .....	40 lb. plastic lined carton (1/case) .....	97.40

### EZ-SLIDE Talc/Graphite Mixed Powder Lubricants

EZ-Slide 80/20 & 50/50 Talc/Graphite Seed-Flow Dry Powder is blended especially for use with treated seed in planting boxes. Developed for use in pressure planters for controlling moisture issues and lubrication, it also works exceptionally well in conventional planters in replacement of fine graphite.

#### Key Features:

Designed exclusively for treated seed. - Use in both "gravity flow" and "air" planters. - Increases planting efficiency and maximizes yield per acre. - Reduces moisture issues, lubricates seed and equipment. - Helps prevent "seed bridging" in planter. - High-purity for less meter wear. - Non-toxic. - Apply 4-6 oz. each time hopper is filled with seed.

#### Talc Lubricant

Maximizes yield and profit by increasing plant population per acre. - Reduces moisture generated by vacuum planters. - Helps prevent "bridging" of seeds in planter by reducing moisture. - Helps seed flow smoothly & evenly through vacuum meter planters. - Reduces wear on vacuum meter components.

No.	Description	Per Each
RM-0901 .....	80/20 Talc/Graphite, 8 lb. Bottle (4/case) .....	\$31.54

### SPRAY-ON HEAVY DUTY PAINT AND GASKET CEMENT REMOVER

Cuts through gasket cements, sealants and adhesives. Leaves surface clean, ready to install a new gasket. Allow remover to penetrate into the old finish and do the work for you. When blistering action is completed (approximately 20 to 30 minutes) scrape off with putty knife or squeegee. Removes acrylic enamel (hi-bake and air dry), acrylic lacquer, alkyd enamel, epoxy and urethane finished, varnish, shellac, spray paint, crayon, pencil and decals from wood, glass, metal, concrete, stone, brick, ceramic tile and other surfaces.

No.	Description	Price
00615 ....	Paint & Gasket Cement Remover, 15 oz. ....	\$10.45

**Sprayon Welders Anti-Spatter**  
(Liquid Type)

Non-inflammable. Does not contain silicone. Liquid type formulation designed for the prevention of spatter build-up. Non-greasy. Use anti-spatter liquid for all types of welding. Applications: Mig nozzles, contact tips, weldments, electrode holders, fixtures, resistance welding tips and wheels.

**Welders Anti-Spatter (Powder Type)**

Non-flammable. Prevents adherence of spatter to metal surface during welding. Does not contain silicone. Provides a quick easy means of spraying anti-spatter to the work surface prior to welding. Eliminates the need for CHISELING, WIRE BRUSHING OR GRINDING after welding. Dries to whitish film to expose cracks in weld. After welding the powder is easily removed by brushing or wiping. Easily painted after welding.

No.	Price
00742 ..... Anti-Spatter (Liquid) 16 oz. ....	\$7.85
00741 ..... Anti-Spatter (Powder) 16 oz. ....	7.90

**Sprayon P.D.R.P. (Waxy Film)**  
Penetrant Demoisurant-Rust Preventative

P.D.R.P. #00710 (a product similar to Cosmoline) meets performance requirements of MIL-C-16173D Grade IV for rugged, long-term outdoor or salt water protection.

APPLICATIONS: External surfaces of machines, machine tools, internal combustion engines, fabricated parts, tubings and stampings, tools, dies, outdoor electrical systems, aircraft cargo pits and landing gear, mold saver.

No.	Price
00710 .... P.D.R.P. (Waxy Film) 12 oz. ....	\$10.25

**ALL-PURPOSE SILICONE LUBRICANT**

All Purpose Silicone Lube is an economical lubricant for applications where petroleum based products are not desired. This 5% silicone formula protects against air and moisture to retard oxidation and corrosion. It virtually eliminates friction and sticking to improve high-speed production. Leaves a long lasting film that is compatible with most surfaces.

5% silicone formula. Reduces friction and sticking; protects against corrosion and oxidation with an invisible film that repels water. Compatible with most surfaces; will not attack

most plastics. Will not interfere with painting or decorating. Effective from -50°F to +375°F. Equipped with SPRAY ANYWAY™ valve and extension tube. Recommended Uses: Rubber moldings, windows, sliding wood surfaces, sewing equipment, sliding racks, dissimilar metals, springs, leather, doors, hinges, weather-stripping and plastic assemblies.

No.	Description	Price
00206 .....	Silicone Lubricant, 10 oz. ....	\$9.35

**SPRAY-ON #711**

**PENETRANT-LUBRICANT,  
DEMOISTURANT AND RUST PREVENTATIVE**

Penetrates microscopic irregularities of surface in allowing the release of frozen or corroded parts. Demoisurizes by displacing surface moisture, providing a protective barrier between moisture and the metal surface. Lubricates with a unique blend of lubricating ingredients, thus eliminating the need for silicones or old fashioned oils which leave a sticky or gummy residue. Inhibits corrosion by depositing a long lasting, rust preventative film which displaces and repels water. Will not harm plastic, rubber, fabrics or painted surfaces.

No.	Description	Price
00711 .....	Penetrant Lubricant, 12 oz. ....	\$8.60

**Sprayon RUST BREAKER**

**Penetrates frozen nuts & bolts - Displaces moisture - Prevents corrosion - Non-flammable propellant - High dielectric strength - Jet stream spray**

Rust Breaker's accelerated action quickly loosens rust, while penetrating grease and dirt. A transparent, non-staining oil, its light film also displaces moisture and acts as a corrosion preventative. Will not affect most painted surfaces.

Rust Breaker's non-flammable propellant has no flashpoint for increased safety. Applicator sprays up to two feet in a jet stream, assuring saturation of working areas only—preventing unnecessary waste and allowing safe application on moving parts.

Model	Description	Price
00103 .....	Spray-On Rust Breaker 12 oz. ....	\$10.55

**Sprayon BLAST 'EM**  
**Wasp & Hornet Killer**

Kills wasps, hornets, yellow jackets, flies, mosquitoes, and flying moths, and is EPA registered. It contains a high amount of petroleum distillates for the best knockdown and kill rate, and its flood type valve sprays a stream 20 feet. Residual deposit will kill returning wasps & hornets. Will not harm most plastics. Dielectric strength: 33,000 volts. Read label for proper indoor use.

Ideal for utility meters and boxes; nesting areas in eaves and shrubs; doors and window frames; outdoor light fixtures, etc.

No.	Each
00857 .....	Wasp & Hornet Killer, 12 oz. ....
	\$11.25

**TRI-FLOW Industrial Lubricant**

Tri-Flow is a unique premium formulation of 14 ingredients including micronized Teflon, high-grade petroleum oils, corrosion inhibitors, moisture displacers, cleaners penetrating ingredients and extreme pressure additives.

**Dramatically reduces friction and wear** on moving parts, making them work smoother, quieter, longer.

**Penetrates quickly** to loosened rusted or sticky parts by washing away dirt, corrosion and contaminants. **Protects against rust and corrosion** even under the most severe conditions.

No.	Each
20027 .....	TRI-FLOW Lubricant, 12 oz. ....
	\$18.90

### SPRAY-ON Upside-Down Marking Paints

Fluorescent High Visibility OSHA & APWA Colors

Sprayon's Upside-Down Marking Paints feature the convenient spray-through caps & non-clogging tip.

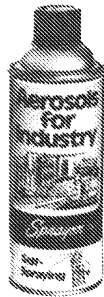

For traffic, utility and general purpose marking. 20 oz. cans with non-clogging valve. Minimal finger pressure required. Use 6" distance for writing. Can be used up to 18" distance for marking.

Uses: Concrete Surface, Pavement, Utility Marking, & Excavation Marking. Good adhesion to: Grass, Soil, Gravel, Asphalt, Cement & Cable.

### ENAMEL SPRAY PAINT FOR INTERNATIONAL, AND JOHN DEERE

SPRAYON'S enamels are made from the finest materials available. They are fast drying, permanent and cannot be accidentally removed. Meets Military, Federal, ASA and Weapon Specifications.

THE DANVERN VALVE A SPRAYON EXCLUSIVE

Danvern fan spray provides a smooth elongated pattern (rotate valve tip 1/4 turn for horizontal or vertical fan spray pattern) which can be overlapped like a spray gun. This design offers significant advantages, such as, better and faster coverage, while using 10 to 12 inches required by aerosol valves. This valve permits lighter finger pressure - only 1/4 to 1/2 the pressure required or other aerosol valves with reducing overspray, resisting clogging, producing finer atomization and instant shut-off.

No.		Price

### Krylon Maintenance Engine Paint

Fast-drying, high performance acrylic enamel. Withstands temperatures up to 500° F. Matches OEM standards. Won't blister, flake, crack or peel. Oil and gas resistant.

K1611	.... Engine Paint, Gray, 12 oz. Spray .....	10.05
-------	---	-------

### Krylon Maintenance High Heat Paint

Withstands temperatures up to 1000° F. Provides a clean, durable finish. Dries to the touch in minutes. Uses: Steam pipes, heaters, boilers, diesel and gasoline engines and gas grills.

K1614	.... High Heat Paint, Black 12 oz. Spray .....	11.75
-------	--	-------

### SPRAY-ON BLUE LAYOUT FLUID

Easy to apply - saves time, mess and cleanup. Adheres to metal and glass. Fast drying, non-flaking, non-etching, won't peel. Heat resistant and non-corrosive. SMOOTH NON-GLARE finish allows clear and precise scribe lines. Sprayon's patented Danvern Fanspray Valve reduces overspray and waste, permitting 20% more coverage.

APPLICATIONS: Inspection departments, tool & die, pattern layouts, production layouts, sheet metal.

No.		Price
00603	..... Blue Layout Fluid, 12 oz. ....	\$9.52

### LAYOUT FLUID REMOVER

Specifically formulated for easy, clean and quick removal of #00603 Blue Layout Fluid. Also effective as a remover of lacquer materials. Leaves no residue. Comes with Sprayon's patented Danvern Standard valve. May harm certain plastics.

No.		Price
00606	..... Layout Fluid Remover, 12.75 oz. ....	\$8.85

### Sprayon

### GENERAL PURPOSE CLEANER

DOES NOT STREAK. Cleans surfaces fast and easy thru foaming action. Just spray it on and wipe it off immediately for sparkling clean surfaces everytime. Leaves no film to attract dirt and is non-staining. Contains ammonia for effective grease cutting. Excellent on glass, vinyl, finished wood, porcelain, formica and chrome.

No.		Price
00880	..... General Purpose Cleaner, 12 oz. ....	\$6.35

### Sprayon Engine & General Purpose Degreaser (Water Soluble)

Powers away dirt, grease and varnish deposits. It is non-corrosive, non-staining. Will not damage wiring, insulation, distributor caps or painted surfaces. Easy to apply and flushes clean with water. Allow product to set a for minimum of 15 minutes for better cleaning results.

No.		Each
00702	.... Engine & General Degreaser, 12 oz. ....	\$9.52

### Sprayon

### BRAKE & PARTS CLEANER

Non-Chlorinated - Fast Evaporating Leaves No Residue

Designed for fast, effective removal of dirt, oil, grease, wax and tar. **Uses:** Electric motors, brakes, gears, clutches, molds, generators, tools, machinery, engines and mechanical equipment.

No.		Each

## Permatex THREADLOCKER GEL-TWIST

Threadlocker Gel in the GEL TWIST pin point applicator is the true innovation in Threadlocking! Applicator leaves the Threadlocker where you want it...on the part! Threadlocker will not drip or run, and is easily portable. Reduces waste and makes it great for use in vertical applications. Extended nozzle allows for easy application in hard to reach locations. **Threadlock Blue** can be removed with hand tools. **Threadlock Red** requires heat or special tools for removal.

No.	Description	Each
PX-24010	Threadlocker Blue, Med. Strength	\$15.50
PX-27010	Threadlocker Red, High Strength	15.50
Dealer Schedule.....		152

## Permatex FORM-A-GASKET #2

Reliable paste-like gasket sealant/dressing/coating. Best suited for non-rigid vibrating assemblies. Use to 400°F. Resistant to gasoline and solvents. Conforms to MIL-S-45180D.

No.	Description	Each
PX-80016	Form-A-Gasket #2, 3 oz. tube, carded	\$5.25
PX-80011	Form-A-Gasket #2, 11 oz. tube, carded	11.20
Dealer Schedule.....		152

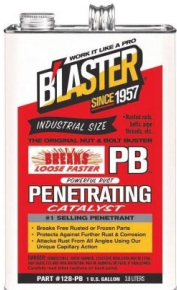

## Knock'er Loose PENETRANT

An industrial strength, low viscosity super penetrant designed to quickly loosen and free seized, bound or frozen fasteners. Quickly permeates rust, scale, gum, grease and corrosion. 18 oz. Spray Can.

No.	Price	
1724W	Knock'er Loose Penetrant-Lubricant	\$8.25
Dealer Schedule: Full Case Of 12 Each		253
Broken Case		102

## PB Blaster Penetrating Catalyst

Quickly breaks loose the surface tension of frozen parts and protects against further rust and corrosion.

Eliminates fighting with rusted and frozen fasteners and parts, and works where other penetrating lubricants fail. PB Blaster

does not evaporate and remains on the surface to lubricate and protect against further corrosion. Also an excellent cleaner for corroded fasteners.

No.	Price	
PB016	PB Blaster Penetrating Catalyst, 16 oz.	\$6.95
PB128	PB Blaster Penetrating Catalyst, 1 Gal.	39.20

Dealer Schedule: 16 oz. Full Case of 12		253
16 oz. Broken Case		102
Gallon		253

## J-B WELD

### Drill It - Grind It - Weld It

Easy to Use. Repair, Fills and Bonds. Can Be Used On Iron, Steel, Copper, Aluminum, Brass, Bronze, Pewter, Wood, Porcelain, Ceramic & Plastic.

## MEAN GREEN Super Action Heavy-Duty Cleaners

- Biodegradable
- No Phosphates
- No Solvents
- Non-Flammable
- Environmentally Friendly

**Super Strength Cleaner & Degreaser** is ready to use on tough jobs with the most power of any all-purpose spray cleaner. Total economical cleaning for the home, office or industrial situations in diluted solutions or at environmentally safe full strength. It is highly recommended for cleaning machinery and has been proven to be a great detergent, surface cleaner and degreaser. Mean Green works great as a carpet cleaner and floor wax stripper and is great for household ovens and outdoor grills. Mean Green is without a doubt the best engine cleaner on the market. It requires little or no scrubbing and replaces all other solvents and degreasers. USDA Authorized.

**Zap Glass & All-Purpose Spray** cleaner performs like two products in one. It cleans glass with no haze or streaks while tackling the tasks of all-purpose cleaners. Zap is gentle to the skin and safe for all surfaces and the environment.

**Mildew Destroyer & Cleaner** removes mildew, soap scum, grime and algae from the kitchen and bathroom twice as fast as other leading brands, and is environmentally safe. Mildew Destroyer & Cleaner is ideal for institutional and hotel usage.

**No Scrub Tire Cleaner Plus** cleans car and truck tires without scrubbing. Simply spray No Scrub on the tire and rinse to leave a rich new satin black color. No Scrub Tire Cleaner Plus also effectively degreases engines, tools and other tough cleaning tasks.

1/3 Pint Capacity  
5" Straight Spout

No.	Description	Price
600	Pistol Oiler	\$12.99

Dealer Schedule ..... 203

Finest quality small capacity pump oiler. For mechanics, home or farm. Seamless drawn steel body. Double seemed base. Unexcelled pump action. Baked copper bronze finish.

## Plews Grease Gun Holder

Holds any standard grease gun with approx. 2-1/2" tube.

No.	Description	Price
GG-70-901	G-Gun Holder	\$9.00

Dealer Schedule ..... 152

## Gasoline Hose Nozzle

(3/4" Nozzle Pipe)

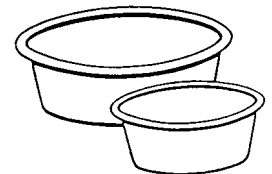

No.	Description	Price
NS-1538	Aluminum Gas Nozzle, 3/4" Inlet	\$32.00
NS-1539	Aluminum Gas Nozzle, 1" Inlet	32.00

Dealer Schedule.....152

## Central Utility Pans

Made of durable impact resistant rubberized plastic that will not break or crack even when used in cold weather. Slick non-stick finish. Used for feeding, oil changes, plants, pet dishes etc.

No.	Description	Price
UP-1	Utility Pan (1 Gallon)	\$5.25
UP-3	Utility Pan (3 Gallon)	6.60

Dealer Schedule.....152

## Suction Gun

Designed for draining and filling non-corrosive liquids. Barrel holds approximately one pint with 9" stroke. Features 12" plastic hose with durable corrosion resistant finish.

No.	Description	Price
GG-30-118	Suction Gun	\$18.60

Dealer Schedule.....152

## Polar Starting Fluid

Provides quick, smooth starting in all types of diesel and gasoline engines. (35% Ether)

No.	Description	List Ea.
PSF-082	Starting Fluid, 11 oz.	\$4.20
PSF-081	Starting Fluid, 8 oz.	3.60

Discount: Case of 12 cans ..... 253  
Broken Case ..... 102

**GOLDENROD**

**BOWL TYPE FUEL FILTER**

For gasohol and diesel fuel on farm, in construction and light industrial use. 10 micron filtration at 5 gpm gravity flow with 24" head. 150 psi working pressure. 1" fittings. Alcohol resistant. Plastic see through bowl. Sediment drain valve. Shock and weather resistant. Zinc die cast top cap. 9-1/2" high x 4" diameter. Low cost replacement filter element with 366 square inched filtering surface.

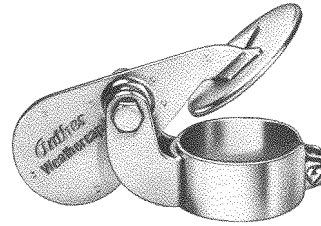

No.	Description	Price
GR495	Golden Rod Fuel Filter	\$58.90
GR495-5	Filter Element	11.06
GR495-4	Container Bowl	29.48
GR470-7	Gasket	1.15
GR491	Filter Wrench	9.41

Dealer Schedule.....33/133

**NEW PRICES AS OF 2/21/2018**

**Anthes Weathercap**

The weather cap opens with first slight pressure inside of the stack. Closes instantly when exhaust pressure stops. Full vertical opening will not block exhaust gases which can cause dangerous back pressure.

To install, simply tighten on bolt. No holes to drill, and no clamps needed.

Order No.	Type No.	Minimum Exhaust O.D.	Maximum Exhaust O.D.	Price

**GOLDENROD**

**SPIN-ON FUEL FILTERS**

596

**Standard Spin-On Fuel Filter**

For use with gasoline, gasohol, microscopic particulars (10 microns) of rust, sand, dirt, scale, filtering surface. Working pressure up to 50 PSI. Maximum recommended flow rate: 12 GPM. Ideal for farm, construction, industrial, and service station use.

**Water-Block Spin-On Filter**

For use with gasoline and diesel fuels. Filters microscopic particles (10 microns)

and also absorbs and removes water from fuel. Restricts fuel flow as water is absorbed, signaling the need for an element change. 201 square inches of filtering surface. Maximum recommended flow rate: 12 GPM. Ideal for farm, construction, industrial, and service station use.

**Top Cap**

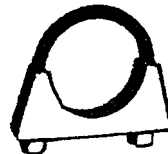

For use with D-L/GoldenRod Spin-On Fuel Filters. Heavy-duty zinc die-cast. Copper bronze plated on enamel. Fits standard one inch pipe fitting.

No.	Description	Price
GR595	Standard Filter w/Top Cap	\$43.20

# PARMAK FINEST QUALITY ELECTRIC FENCERS

## 6 Volt Battery Operated

### Solar-Pak 6 Volt Solar Powered Fencer

America's first solar-powered electric fencer is equipped with the latest state-of-the-art solar panel. Increased output, longer life. Eliminates the need of expensive battery replacement or inconvenient recharging. Solar-Pak will operate for 21 days in total darkness. Charges up to 25 miles of fence. Complete with sealed 6-volt Gel battery. U.L. Listed

No. Price  
DF-SP-LI ..... Solar Powered Electric Fencer ..... \$282.06

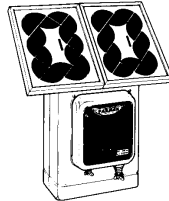

100% solid state, no moving parts. Low cost, high quality model for indoor installation. A model with which you can meet any price competition. Charges up to 10 miles of fence. Uses any type 6 volt battery. UL listed

No. Price  
S-1 ..... Electric Fencer ..... \$66.05

### Solar-Pak 12 Volt Fencer (Low Impedance)

Solar powered, uses free energy from the sun. Low impedance for maximum power, longer life, no operating costs. America's first solid state solar powered fencer. Features the latest state-of-the-art solar panel. Solar-Pak has all the great Magnum 12 features plus solar power. Complete with sealed 12-volt Gel battery. Weatherproof, portable outdoor model. Charges up to 30 miles U.L. Listed

No. Price  
MAG-12-SP .... Magnum 12 Solar Fencer ..... \$434.50

**Batteries For Parmak Solar-Pak Electric Fencers**  
Sealed, leak-proof, low internal resistance 9.5 A.H. Gel replacement battery

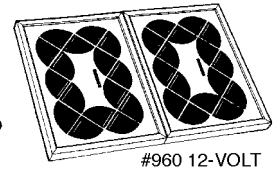

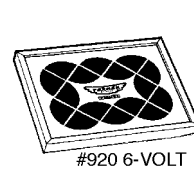

No. Price  
901 ..... 6V Battery for DF-SP-SS Fencer ..... \$47.55  
902 ..... 12V Battery for MAG-12-SP Fencer .... 93.08

### Special current taper chargers for solar fence batteries.

No. Price  
951 ..... 6V Taper Charger ..... \$24.47  
952 ..... 12V Taper Charger ..... 24.47

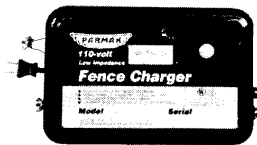

### Replacement Solar Panels

Complete with steel back, battery case lid, and wire connectors.

No. Price  
920 ..... 6V Solar Panel for DF-SP-SS ..... \$134.60  
960 ..... 12V Solar Panel for MAG-12-SP ..... 221.60

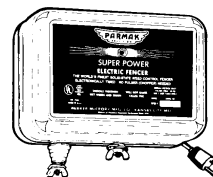

### Multi-Power Mark-8

Low impedance for medium to large pastures - single or multi-wire high tensile fence. Advanced solid state circuitry featuring Parmak's exclusive built-in performance meter. Shocks through wet weeds and brush. Ideal for livestock & predator control. Furnished complete ready to plug into AC line. Fully warranted. 110-120 volts, AC. UL listed. Charges up to 30 miles of fence. Indoor installation.

No. Price  
MARK-8 ..... Multi-Power Electric Fencer ..... \$200.35

### Fieldmaster

The all new low impedance model for small to medium pastures. Advanced solid state circuitry. Shocks through wet weeds & brush. Built-in operational light. For indoor installation. Charges up to 15 miles of fence UL listed.

No. Price  
FM3 ..... Fieldmaster Electric Fencer ..... \$172.92

### 12 Volt Battery Operated (Low Impedance)

12-V Battery Operated. Advanced solid state circuitry. New compact design. Equipped with performance meter that shows condition of fence. Low impedance - for livestock of predator control - medium to large pastures. Shocks through wet weeds and brush. Weatherproof, portable outdoor model. Use with 12 volt storage battery. Charges up to 30 miles. Complete with battery clamps. UL listed.

No. Price  
MAG-12UO .... 12 Volt Electric Fencer ..... \$150.80

### Super Energizer Model

The most powerful Parmak model. Low Impedance designed specifically for large pastures - single or multi-wire high tensile fences. Advanced solid state circuitry featuring Parmak's exclusive built-in performance meter. Shocks through wet weeds and brush. Ideal for controlled grazing of livestock including sheep and predator control. For indoor installation. Charges over 50 miles of fence. UL listed

No. Price  
SE-5 ..... Super Energizer Electric Fencer ..... \$227.10

PRICES AS OF 5/10/2021

### Studded T-Post Insulators

For 1.25 & 1.33 lb. per ft. steel T-posts

Order No.	Description	Per Pkg.
DA-2027	T-post topper safety cap insulator, yellow, 10/pkg.	\$10.90
DA-2550-25	Pinlock, black, 25/pkg.	11.90
DA-SNUG-RT-25	3" reversed, yellow, 25/pkg.	13.90
DA-SNUG-STP-25	Standard clip-on, yellow, 25/pkg.	6.15
DA-SNUG-X5TP-25	5" extension, yellow, 25/pkg.	14.40

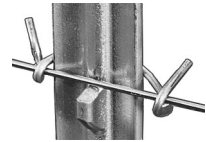

### Round Post Insulators

For 1/4"- 9/16" diameter posts & 5/8" fiberglass T-posts

Order No.	Description	Per Pkg.
DA-WEVERN-RP25	1" screw-tight round post insulator, yellow, 25/pkg.	\$7.75

### Studded T-Post Fastening Clips

For 1.25 and 1.33 lb. per ft. steel T-posts

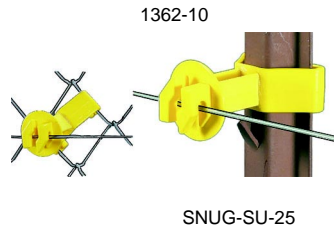

Order No.	Description	Per Pkg.
DA-440	Used to fasten fence or barbed wire to T-posts, 11 gauge galv. wire, 25/pkg.	\$2.20

### Wood Post Insulators

Order No.	Description	Per Pkg.
DA-1728-25	1" wood post insulator w/nails, yellow, 25/pkg.	\$4.00
DA-2285-25	Pinlock wood post insulator less nails, black, 25/pkg.	11.25
DA-2671-25	Wood post ring insulator, black, 25/pkg.	14.65
DA-SNUG-SWP-25	2" wood post insulator w/nails, yellow, 25/pkg.	6.15
DA-WOOD-5WP10	5" ext. wood post insulator w/nails, yellow, 10/pkg.	7.25
DA-3003	Power driver for wood post ring insulator (use with electric drill), 1/pkg.	7.50

### U-Post and Chain Link Fence Insulators

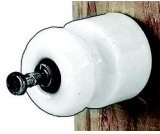

Order No.	Description	Per Pkg.
DA-1362-10	5" extension "essex" bracket insulator for T-post, U-post, and chain link fence, w/cotter pin and screw, 10/pkg.	\$10.65
DA-SNUG-SU-25	1" u-post and chain link fence insulator, yellow, 25/pkg.	10.15

For 1-3/4" to 2-1/8" wide u-posts

### DARE FENCING PRODUCTS

**Porcelain Line Insulators**

Order No.	Description	Per Pkg.
DA-16-25 .....	Std. size single groove porcelain insulator, white, 25/pkg.	\$7.85
DA-2799-25 .....	Heavy-Duty porcelain insulator with lag bolt, white, 25/pkg.	60.65

**Tubular Corner Post and End Post Insulator**

Order No.	Description	Per Pkg.
DA-1779 .....	Tubular insulator provides insulation for 90 degree turn or end loop on any style post, 19-1/2" long w/ metal insert, must be slid onto wire, molded black polyethylene, 10/pkg.	\$17.75

### Porcelain and Plastic Corner and End Insulators

1752-10

2210-10

Order No.	Description	Per Pkg.
DA-1752-10 .....	Molded high strength polymer donut style, suitable for high tensile fence, black, 10/pkg.	\$7.40
DA-2210-10 .....	Double U end and corner insulator, high strength polymer, suitable for high tensile fence, black, 10/pkg.	11.40
DA-2356-10 .....	H.D. porcelain, donut style, white, 10/pkg. (Not Pictured)	8.35

### Insulator Tubing

For use under driveways and gates.

Order No.	Description	Price
DA-2453 .....	Insulator tubing, accommodates up to 12-1/2 gauge wire, polyethylene, black, 5 ft. roll	\$15.65

### Gate Handles

503

1247

1793

Order No.	Description	Price
DA-503 .....	Plastic gate handle, red (Old Faithful)	\$2.40
DA-1247 .....	Rubber gate handle, yellow (Rub'rgate)	3.65
DA-1793 .....	H.D. molded vinyl gate handle, black (Old Ironsides)	6.65

### Equine Polywire

400 meter white polyethylene cord w/ woven U resistant polyethylene and 3 strands of stainless steel wire

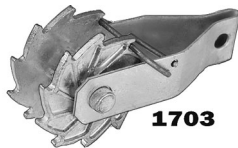

Order No.	Description	Price
DA-3177 .....	Equine Polywire, 400 meter, white	\$63.50

NEW PRICES AS OF 9/10/2018

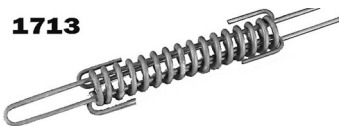

### High Tensile Fence Supplies and Accessories

2420

1703

1713

2290

1701

Order No.	Description	Price
DA-1701 .....	Strainer handle for use with DA-1703 strainer, tension measuring scale on handle, zinc plated	\$9.00
DA-1703 .....	Wire Strainer / tightener, heavy cast clog w/ spring loaded latch, zinc plated	4.65
DA-1713 .....	Tension measuring spring, keeps wire taut during temperature changes, hot dip galvanized	8.75
DA-2290 .....	9" wire cutting pliers w/ hardened jaws for cutting high tensile	37.25
DA-2420 .....	Wire dereeler / spinning jenny w/ brake pad to prevent over-running, adjusts to fit 17" to 24" I.D. coils	94.50

## DARE FENCING PRODUCTS

### Splicing Equipment - Sleeves, taps and tools

2154

SPLICING SLEEVES

FENCE TAP

Order No.	Description	Price
DA-2083	Split bolt / line tap, used to connect hook-up or grounding wire to fence - this is not a splice, 10 / pkg.	\$20.00
DA-2154	Four slot hand crimping tool for use w/DP 1-2 thru DP 4-5 sleeves and DPT 3-4 & DPT 4-5 fence taps, 21" OAL	92.25
DA-DP 1-2/100	Splicing sleeve for 14-1/2 & 15-1/2 ga. smooth wire, 100 / pkg.	18.40
DA-DP 2-3/100	Splicing sleeve for 12-1/2 ga. smooth wire, 100 / pkg.	21.25
DA-DP 3-4/100	Splicing sleeve for 10 & 11 ga. smooth wire, 14-1/2 & 15-1/2 ga. barbed wire, 100 / pkg.	67.00
DA-DP 4-5/100	Splicing sleeve for 9 ga. smooth wire, 12-1/2 & 13-1/2 ga. barbed wire, 100 / pkg.	82.50
DA-DPT 3-4/10	Fence tap used to connect 12-1/2 - 14 ga. fence wire to 12 - 14 ga. hook-up wire, 10 / pkg.	5.71

### Miscellaneous Fencing Accessories

1360

2199

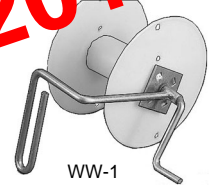

3001

482-3  
483-4

485-1

WW-1

Order No.	Description	Price
DA-1360	Multi-light graduated electric fence tester shows how many volts are at the charger or on the fence wire voltages are marked on the case from 600 to 7000 volts	\$16.75
DA-2199	Double throw electric fence switch for outdoor use, install several in each electric fence to switch off areas for testing and to allow repairs	15.15
DA-221	Single throw electric fence switch (same description as double throw switch) (Not Pictured)	12.75
DA-3001	20-1/2" fencing pliers w/ hammerhead, wire cutter and staple puller. (Will not cut high tensile wire)	17.00
DA-482-3	3 prong weed chopper to fit weed chopper-type electric fences	20.65
DA-483-4	4 prong weed chopper to fit weed chopper-type electric fences	21.25
DA-485-1	1 amp fencer fuse, 1/4" x 1-1/4", 5/pkg.	2.90
DA-WW-1	Hand-held wire and polytape winder, capacity = 22 lbs. of steel wire or 1/4 mile of polywire or tape, includes spool	26.65
DA-EFS-1	Extra poly spool for DA-WW-1 winder, 4" wide x 6-1/2" O.D. (Not Pictured)	7.25

### DARE LIVESTOCK TANK FLOAT VALVES

Universal farm tank watering valves convert tanks or barrels into automatic stock waterers. Requires little attention and keeps open tanks filled with fresh water. Adjustable to several heights, they are easily installed by hanging plated brackets over edge of tank. Brackets for Poly tanks included as well. Designed to operate from gravity flow or up to 70 PSI.

Order No.	Description	Price
DA-798	300 g.p.h. plastic housed float valve	\$14.75
DA-1780	300 g.p.h. aluminum housed float valve	24.40

# MARADYNE Cab Heaters

### MODELS 5001 & 8100 (12 Or 24 Volt)

Popular heater for truck, tractor, cab, etc. Provides windshield defrosting with optional defroster kit. Air enters top, heated air exits thru three adjustable doors on front and two 1-3/4" defroster holes. Mounting studs & water hose connectors at rear.

### MODEL 5001 SPECIFICATIONS

12,500 BTU per hour output\*. 130 CFM heater air capacity. 35 CFM defroster air capacity. Power requirements: 1.5A @ 12V, 7.5A @ 24V. 6-7/8" high, 6-7/8" wide, 7-1/4" deep.

### MODEL 8100 SPECIFICATIONS

Same basic design as model 5001, except higher output and slightly larger size. 20,000 BTU per hour output\*. 250 CFM heater air capacity. 60 CFM defroster air capacity. Power requirements: 5A @ 12V, 2.5A @ 24V. 8-1/8" high, 8-1/2" wide, 8-1/8" deep.

\* All heaters are rated at 150 degrees F. temperature differential. 180 degrees water temperature. 30 degrees ambient air temperature.

### A Complete Heater Requires:

1 Heater, 1 w/3' Harness, 1 Installation Kit

# Magnetic Heaters

K-1160

K-1153

**Applications include:** Oil Pan, intake manifold, battery holder or engine block. Snowblowers, chain saws, snowmobiles, or other small engines. May be used for warming hydraulic systems or thawing frozen locks, pipes, gutters, livestock feeders, etc. **The Magnum** features two powerful magnets and an expanded heating surface. It can be used in many of the same applications as Handi-Heat, plus its larger size makes it ideal for use on trucks, diesels and farm machinery. Cord 4 ft.

No.	Heating Area	Watts	Volts	Price

# Femco Custom Fit Weatherbrakes

**Custom Fit:** Tailored to the make and model of tractors listed for a tight fit.

**Windshield:** Rigid, clear vinyl with heavy steel frame, no loose gaps to let in cold or wind.

Windshield is plate polished, wrinkle and distortion free for maximum visibility.

**Reinforced Vinyl Laminate:** Vinyl is resistant to ripping and rotting. It is sewn with nylon thread using double lock seams in stress areas.

**Installation:** Fewer pieces and precision tooled metal parts that slip easily into place. No special tools needed.

*A Convenient Way to  
Stay Out of the Wind & Cold!*

## Bead Breaker

A revolutionary hand tool that makes the dismounting of tires quick and easy.

Applies up to 5 tons of pressure on the bead.  
Portable and small enough to fit into a tool box.  
Simple to operate and comes fully assembled.

Construction uses:

backhoes, loaders and graders, skid steer loaders,  
trucks (tube type and tubeless)

Farm uses:

tractor tires (front & rear),  
implements (manure spreaders, wagon grain carts)

Other applications:

all terrain vehicles, four wheel drive vehicles, fork lifts &  
industrial mine tires, wheelbarrows and more

## Purolator Polyfiber Air Filters premium quality

Purolator Polyfiber filters are produced using specially developed polyester fibers bonded together to form an interlocking pattern of tiny lint and dust traps. Dust loading is accompanied by a uniform buildup in resistance. Media is designed to minimize surface loading.

The Purolator Polyfiber frame is constructed of heavy duty kraft board. Purolator's monobond seal provides a strong unitized bond for residential, commercial, or light industrial use.

**Purolator Polyfiber filters provide superior performance where large quantities of lint and dust predominate.** Rugged construction has made this an industry leader as a pre-filter for higher velocity systems.

**Stock Sizes: 16x20x1, 16x25x1, 20x25x1**

**Sold in Cartons Of 12 Only!**  
**Call for availability of other sizes!**

# ELECTRIC OPERATED SOLENOID VALVES.....

No. 144-1  
For Planters

No. 144-2  
For Discs & Incorporators

No. 144-3  
For Boom Sprayers

The No. 144 Directo Valve is specifically designed for agricultural spray boom control. It is activated by the vehicle's 12 volt DC electrical system. This permits remote locating on the sprayer and allows quick and convenient control of the spray boom.

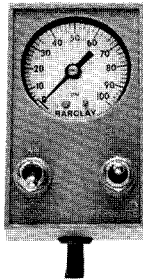

10 GPM flow rate with 5PSI pressure drop.  
Terminals can be located at any of four positions of 90 degrees apart.  
Coil can be removed without removing valve form line.  
Valve can be manually actuated.  
Coil cover, straps, and bottom plate are epoxy painted steel.

## MODEL RC-10

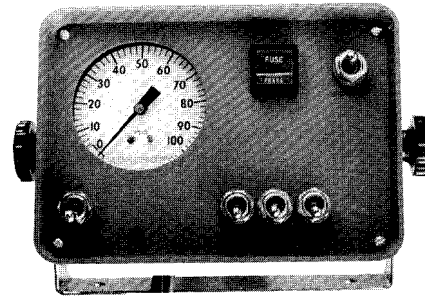

12V DC Electric Pressure Regulator

### FEATURES

- \*Remote controlled pressure regulator permits operation from inside the tractor cab.
- \*Valve is operated by a two-way electrical switch connected to any 12 Volt (DC) power source.
- \*Valve cycle from open-to-closed is 30 seconds. Any setting in between can be precisely achieved by jogging the switch forward and backward.
- \*Energy consumption is extremely low (10 milliamps.) and only when settings are being changed.

## RC-1 REMOTE CONTROL SYSTEM

### FEATURES

- \*Constant "eyes-front" monitoring of sprayer pressure.
- \*Simple "finger-tip control" of sprayer pressure with mounted switch.
- \*Quick disconnect in system wiring harness permits permanent installation of monitor & control Module in tractor cab and permanent mounting of Control Unit on sprayer.
- \*Simple "do-it-yourself" installation.
- \*Complete - nothing else to buy - operates on any 12 volt system.

### RC UNITS INCLUDE:

Monitor, butterfly, valve & wiring. 144 solenoids are NOT included with below kits. Order Separately

# FloodJet

The FloodJet and Nozzles produce a very wide deflector type spray pattern.

Round orifice minimizes clogging.

Lower spraying pressures produce coarse particles minimizing drift. As shown here, nozzles may be mounted vertically or horizontally.

Spray overlap can be varied by raising or lowering boom - and by rotating boom.

(TKSS) FloodJet Nozzle 1/4-3/4"

900-34 .....	3/4" .....	8.35

**XR TeeJet** EXTENDED RANGE  
FLAT SPRAY TIPS  
with *VisiFlo* color coding

**LOWER PRESSURE:**

Excellent spray distribution  
Larger droplets for better drift control  
Longer wearing

**HIGHER PRESSURE:**

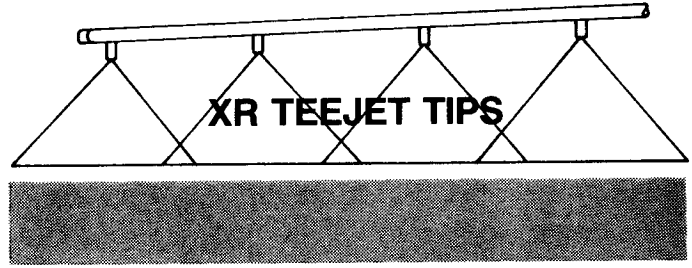

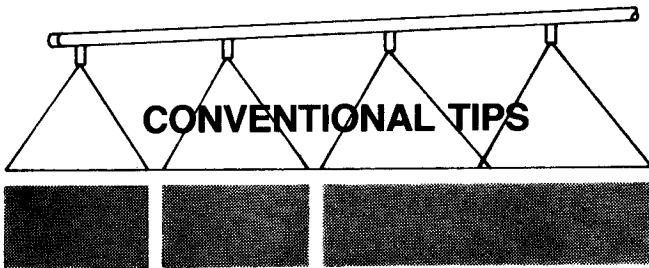

Excellent spray distribution  
Smaller droplets for good coverage  
Excellent canopy penetration

**IDEAL FOR AUTOMATIC SPRAYER CONTROLS**

The patented design automatically compensates for changes in pressure actuated by today's automatic sprayer control systems. When the sprayer control drops pressure as you slow down, the tip maintains the necessary spray overlap. The same feature compensates for abrupt changes in boom height caused by rough or uneven terrain Result: less skips.

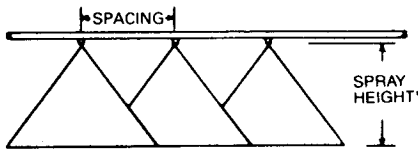

**Features:**

Excellent spray distribution over a wide range of pressures (15-60 psi).  
Idea for rigs equipped with sprayer controllers.  
Reduces drift at lower pressures, better coverage at higher pressures.

Spray skips with standard flat spray tips when boom is tilted or bounced.

Wider coverage of XR TeeJet spray patterns minimize spray skips . . . even at low pressures.

\*Adjust spray height in the field to overlap approximately 30% of each edge of pattern.

SUGGESTED MINIMUM SPRAY HEIGHT	
SPRAY ANGLE	SPRAY HEIGHT 20" SPACING
80°	17-19"
110°	10-12"

SEE p. 2 FOR A COMPLETE TABLE OF SPRAY HEIGHTS AND COVERAGES

**HOW TO ORDER:**

SPECIFY TIP NO.

Now! - - Change Spray Tips  
Hand-Twist Quick

THE  
**Quick TeeJet**  
SYSTEM

FOR USE WITH DRY BOOMS

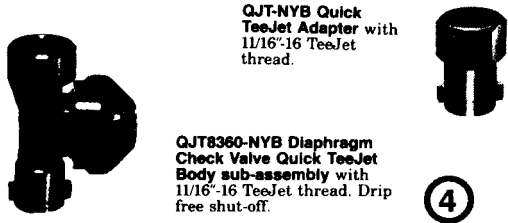

The QJ series low profile design allows maximum protection against damage. Available with single and double hose shanks for 3/8, 1/2 and 3/4" I.D. hose. Drip free shut-off. Opens at 10 psi. Standard diaphragm is EPDM with Viton optional. Maximum operating pressure 125 psi with optional 300 psi when used with high pressure Quick TeeJet Caps.

For Complete Assembly Order (1) Nozzle Body, (2) Clamp and (3) Cap and Gasket Set. Order Tips Separately.

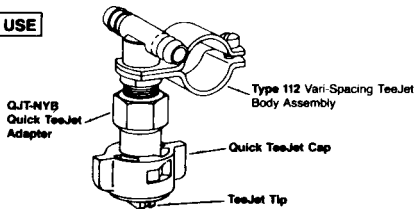

ADAPTERS FOR RETROFITTING

Permit usage of Quick TeeJet caps and TeeJet tips with standard TeeJet Nozzle Bodies.

**QJT8360-NYB Diaphragm Check Valve Quick TeeJet Body sub-assembly with 11/16\"/>**

TYPICAL USE

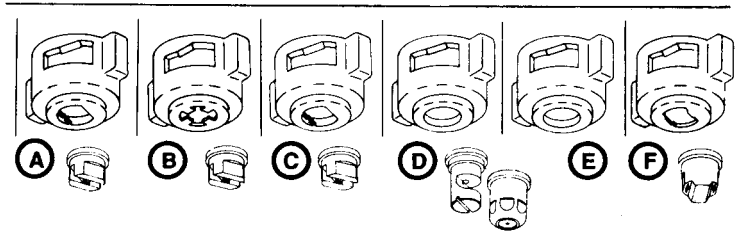

No.	Description	Price
QJT-NYB .....	Bodies using 8027 cap ...	\$4.91
QJT-8360-NYB ...	Bodies using 8027 cap ...	18.80

Retrofit Adapters are used with Standard TeeJet Nozzle Bodies and Clamps. Order 4 Retrofit Adapter and 3 Cap & Gasket Set (see above). Order Tips Separately.

**Quick TeeJet** NOZZLE BODY  
SUB-ASSEMBLIES

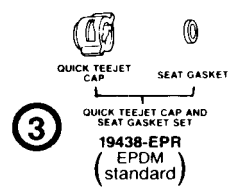

Quick TeeJets are carefully constructed in a reinforced design that utilizes extra tough nylon and Celon....weather and chemical resistant materials that withstand toughest field conditions....Easy to install on any boom system. Auto-align of flat spray tips.
